# ABOUT ASTROLOGY.

---

THE influence of the stars and planets upon human life has been studied and calculated by seers, sages and wise men of all ages. Astrology, or reading the stars, is an exact science, and teaches one how to control natural tendencies.

In the following pages will be found a brief, concise character delineation of each of the Twelve Signs of the Zodiac. During a year the Sun passes successively through these signs, and the character and temperament of each being of this planet is more or less affected by the influence of the sign of the Sun was in at the time of birth.

Of course while this little book contains much valuable information for the reader, it is in no way as complete as my large book, entitled **The Hindu Book of Astrology, or Yogic Knowledge**, which I sell for 50 cents. This larger work is said by many authorities to be the most complete and comprehensive work ever published on Astrology. It clearly shows how every person may become a successful fortune teller according to the methods of the great Hindu Yogi Astrologers of India, who have been thousands of years perfecting this system. With this larger work we show, in a very simple and plain manner, how any one of ordinary intelligence can take the month of birth as a basis and reveal the mysteries of the future. The reader can get his own delineation of character in detail and also tell that of any human being. It clearly points the way to health and wealth; how to abolish poverty; how to

control the planetary and solar forces of the Universe so that you can become magnetic and draw almost any one or anything to you. I spent years in retirement, deep meditation and the practice of the different methods of Yoga under the great Swamis and Gurus and Hindu adepts to acquire their profound knowledge so that I could write this wonderful book. If any of the readers of this little book desire the larger and more complete work, which goes into all the details of your life and, in a sure and certain way, shows you how to have perfect health, great prosperity and happiness, I will be pleased to send a copy upon receipt of 50 cents. Really it is a wonderful book. It is the result of my work among the adepts and great sons whose hearts are ever filled with pity for those who suffer from lack of force and lack of strength to combat woe, misery, disease and poverty. This Hindu Book of Astrology will make all who study it wonderfully successful. It will teach you how to control the forces (internal and external), so that you can be very prosperous. Every human being who has a desire to have revealed to him the occult powers of success should possess a copy of **The Hindu Book of Astrology, or, Yogic Knowledge of the Stars and Planetary Forces, and How to Control Them to Our Advantage.**

Blessed be all the *Yogis, Sankaras, Vidyaranya, and King Sudhanva*, and blessed be all the readers of my books and may joy, peace, health, prosperity and happiness come to all beings on this planet.

**Bhakti Seva, MYSTIC No. 10,**

22 North William Street,

New York City.

All persons born from December 21 to January 19, inclusive, are born under the Sign of CAPRICORN.

You are naturally high minded and self confident, which are two grand qualities and will lead you to great fortune if you will be careful not to be vain or proud. Your happiness depends upon having beautiful surroundings. You can acquire great wealth if you will give attention to the reading and studying of books on occult science, astrology, and the lives of successful men and women. You must never doubt your ability to become successful, and under no circumstances must you allow yourself to fret or worry about anything. Great and wonderful planetary forces and solar fluids continually surround you, which by careful, quiet thought and study can help you. You have at times a strong inclination to do good, and it is deeply to your interest to follow this inclination. You could become a leader in anything you undertook, but you must ever be careful to not undertake to do more than one thing at a time. Your natural sphere is the business world, yet you can succeed in almost anything you undertake. You have large and broad ideas, and have a desire to improve yourself in every way, but you must go slowly and be thorough and honest in everything you do, because the forces within and without your being are so strong that without this care you could be carried to ruin. Your whole happiness and success depends upon a persistent and constant study of your faults, and the best way to do this is for you to read the writings and sayings of wise men and women—seers and sages. Astrology can teach you much, especially those works on the subject written by adepts. Always be modest and quiet, and understand that your great powers and forces will better express themselves by you saying little, thinking much and doing much. Work, and lots of it, is good for all persons born under your sign. Read good books and think and observe. Pay strict attention to small details, and keep your shoulder to the wheel. Some of our greatest politicians, statesmen, scientists and public men and women were born in your sign. Always be independent and self-reliant. You will find a very full and complete delineation of Capricorn people in my large book, entitled **The Hindu Book of Astrology**. Your friends and associates

ought to be calm and successful people. All in all, you were born under a very fortunate sign, and if you don't succeed and are not happy, it is your own fault.

**All persons born from January 20 to February 18, inclusive, are born under the Sign of AQUARIUS.**

The Aquarius people are remarkable in many ways. You are naturally an excellent judge of human nature, and this quality ought to enable you to be very successful in your undertakings. Dealing with the public is what you are adapted to, and you would make a good clerk in a store, a good tradesman, and, if a man, a good politician. Women of this sign make good wives, and are very successful in whatever they undertake, providing they are not lazy or indolent. Aquarius people of either sex must fight laziness or indolence; their happiness depends upon doing,—being busy and accomplishing results. In money matters they can acquire wealth easily, providing they will curb their ambitions a little and not try to do in a year what ought to take several years. As a rule you should spend much time alone and think over carefully your plans before you act. The planetary and solar conditions at your birth were very favorable, and I would urge you to not hesitate to consult astrologers of standing or to read all you can on Astrology whenever opportunity offers, as Astrology can guide you to great health, wealth and happiness. You may think you are too shrewd and too wise for this sort of thing, but Yogic knowledge knows better. The Aquarius person can by study and thought and a thorough understanding of his planetary conditions overcome great obstacles, and work wonders in many ways. Within you are wonderful qualities; but you must consult wise and knowing ones, either personally or by reading their books before you can fully comprehend what to do to bring out all of your great powers and forces. James G. Blaine was born in the Aquarius sign, and by study and reading became one of the greatest leaders of America. In India, the Aquarius people reach the most wonderful success by following the Hindu Yogic Astrologers, and reading their works and complying with the instructions and advice given by these wonderful Yogis, seers and sages. Your

very nature is to be practical, sensible, useful, industrious and very successful. Naturally, you are not lazy. I only wish space would permit me to go into details about your possibilities, but in a small work of this kind I can only briefly outline or suggest what is best for you. In conclusion, always keep up your courage, be joyful and happy under any and all circumstances, and you will draw to yourself the greatest forces and powers of the universe. You ought to read and study my large book, entitled **The Hindu Book of Astrology**; it contains much of value to you.

All persons born from February 19 to March 20, inclusive, are born under the Sign of **PISCES**.

The planetary conditions at your birth make you naturally a very thoughtful, industrious, sensible and persevering person. Yet you may seem to yourself and to others to possess entirely opposite qualities. Your success, health and happiness depends solely upon acquiring knowledge of all kinds. You can draw to you great powers and forces and vital solar fluids by being determined and positive, careful and deliberate. This truth applies to both sexes. Astrology in India is an exact science; and to the Pisces people, who are not as a rule credulous, but who demand a reason for everything, I would strongly urge you to investigate our Hindu System of Astrology, which has reached its present high stage of advancement through thousands of years' work and study by the combined efforts of almost countless students, Yogis, seers, sages and great adepts. This Oriental Astrology could open your eyes to wonderful powers and forces which you can easily command when once you know how to do it. We know that all Pisces people can make splendid attainments; that honor, distinction, wealth and position is theirs if they only understand how to control and use the great planetary and solar forces and powers which continually surround them. George Washington, the Father of this Country, was an excellent example of the grandness of character and persistency of the Pisces people.

In this brief delineation I can only give you a few suggestions of how you can develop and gain all the good and great things that are naturally due you. You must first strive for health and strength and fol-

low God's law, which means clean and regular living—simple living. Great wealth will come to you if you will be guided by the books of the Hindu astrologers, who are wonderful seers, sages and wise men. They always say to a Pisces person, be self-reliant, independent, persistently industrious, provident, saving, but not mean or penurious. In this progressive and advanced age stingy or narrow-minded people meet with failure. Above all you must be temperate in eating and drinking, especially drinking. You often have spells of the blues and despondency. Stop it! You have great fortune and great happiness ahead and the blues and worry will only keep you away from it. I would advise you to read my large book entitled **The Hindu Book of Astrology**, as in it there is much for you.

All persons born from March 21 to April 19, inclusive, are born under the Sign of **ARIES**.

The wise men of India and its great astrologers always rejoice with exceeding joy when an Aries person is born. It is a grand sign. Therefore you have marked qualities which if you will heed and cultivate, will carry you to the highest attainments. You are active, full of life and have high aspirations to reach great success, and you can do so easily by following the advice and suggestions laid down in the wonderful teachings of the Hindu Astrologers, which in brief are as follows: Associate as much as you can with educated and learned people, musicians and persons who have a taste for art and music. Listen to music all you can, and if you feel you can sing, play a musical instrument, become a teacher, a preacher, or lecturer, don't hesitate to follow that inclination. Read good books, magazines and periodicals and keep well informed of the progress of the world. Don't worry about money matters, as by keeping calm and cool, yet faithfully and honestly and industriously working at any calling you may select, will bring you plenty of money. You must learn to work for work's sake and not pay much attention to what immediate money is to be gained thereby. Live quietly and temperately and often attend concerts, churches, lectures and entertainments of a good character, ever striving to acquire knowledge, wisdom and pleasant, harmonious surroundings. Education and

cultivation of your higher nature will bring you health, wealth and happiness. Bismarck was a great and grand character and is a good illustration of the Aries nature. I would advise you to give some time and attention to astrology, as it can help you wonderfully, especially the Hindu astrological works. Either sex of the Aries people ought to live in a nice home, have pleasant and comfortable surroundings, dress well, and keep their bodies pure and clean externally and internally. In my large book, entitled **The Hindu Book of Astrology**, I go into details with respect to the Aries people, and in no uncertain way point to them the way to great and grand achievement, health and wealth, bliss and happiness.

In conclusion, you must always fight worry, fear, blues and discontentment by being quiet and calm. No matter what happens, always know and feel no great harm can come to the Aries people.

**All persons born from April 20 to May 19, inclusive, are born under the Sign of TAURUS.**

You are a very remarkable person in many respects, and by following this brief delineation you will derive benefit. In India the adept Hindu Astrologers give to Taurus people advice which leads, if followed, to great wealth, great health and permanent happiness. There is so much to say to those born in this sign that I must be very brief here. Both sexes of Taurus naturally live in the realm of their sensations and emotions, which, if not carried to the extreme, is not bad. Your treatment of persons depends too much on your sentiment and feeling at the time: hence you are not at all times reliable and steadfast. Whether a man or a woman you will meet with most wonderful success in your undertakings, especially if you will be guided and directed a little bit by Hindu Astrology, as laid down in their books by adepts. In India the Hindu Astrologers guide Taurus people so that they become great and successful leaders of men and women in different ways. Taurus people are especially adapted for great money-making enterprises; they are kind, gentle, magnanimous, yet very firm and positive, and have the most wonderful magnetic and hypnotic powers. In conversation and argument you are brilliant and convincing, and can carry your point. People like the Taurus nature

because it is genial, strong and helpful. My large book, entitled **The Hindu Book of Astrology**, clearly and fully goes into details with respect to Taurus people, and in it I positively show the way to enormous wealth, great health, strong character and wonderful success in every way. You are exceedingly fond of the good things of the world, especially good living, but must guard against too much luxury or too much sensual pleasure. The planetary forces and solar currents will bring you great health, wealth and happiness. Women of this sign can attract to themselves through their husbands wonderful success. Unmarried women can attract a wealthy husband without much effort. Both sexes of this sign must be active and energetic; their health and happiness depends upon energetic work and lots of it. Determination and persistency is strong in Taurus people and makes them leaders and conquerors. Gen. U. S. Grant was born in this sign and is a true example of the Taurus nature. You could not do a wiser thing than to send for my larger book and be guided by its teachings and suggestions. The Hindu Yogic Astrology is a wonderful aid to mankind.

**All persons born from May 20 to June 20, inclusive, are born under the Sign of GEMINI.**

Persons born during the Gemini period are possessed of wonderful qualities—good and bad—and usually live eventful lives. They either become extraordinary great characters or dire failures. Every Gemini person can fully control his or her destiny if they will yield and give up entirely their lower nature to the higher nature. This is the Sign of the Twins, and each person born in it has two distinct natures—one very high and one very low. They run to the extreme in everything and cannot reach perfect health, prosperity or happiness until they exert their will power and kill or crucify the lower nature. The Hindu astrologers, therefore, say to Gemini people in the most positive way, you must know thyself and learn that you have a grand and bright future from the moment you realize the great Law which governs and regulates all things in this universe. You have a vivacious, restless and anxious nature and are intensely ambitious or aspiring. Your energy is tre-

mendous and when controlled and directed in any good or legitimate undertaking will bring great rewards and extreme happiness ; but if directed solely for gain, low, ambitious ends, will bring disaster in some form or other—often sickness, insanity and death. Jay Gould the great millionaire was born in this Sign and was a type of the strong mental ability and restless ambition of the Sign. He worked himself into an early grave. On the other hand the great philosopher, sage and seer, Ralph Waldo Emerson was a pronounced Gemini nature of the other extreme ; his higher nature predominated and he lived to a ripe old age, calm, prosperous and happy, doing untold good to mankind as a writer, preacher and lecturer. When living a quiet, simple, plain and industrious life these Gemini people are far sighted and have the most excellent judgment on most any matter presented to them. Usually they are handsome and elegant people. In my large book, entitled **The Hindu Book of Astrology**, I go into great detail respecting Gemini people and show them how to reach the greatest success in acquiring perfect health, a large fortune and happiness. This can only be arrived at through Hindu Yogic knowledge of how to control the wonderful planetary and solar forces which surge continually through the Gemini man or woman. Briefly you must learn to be calm, patient and not worry, fret or fume about anything, Gemini people should read and study books on astrology, philosophy, occult science, metaphysics and religion, and curb their ambitions. The great Emerson was a deep student of Hindu philosophy and metaphysics.

**All persons born from June 21 to July 21, inclusive, are born under the Sign of CANCER.**

Those born in this sign have a sympathetic and emotional love nature. Cancer people make model housewives and husbands and the very best of nurses in cases of sickness. You are naturally economical, industrious and provident. In India the Yogic Astrologers take persons born in this sign and direct them, through their occult and astrological knowledge, to great prosperity. I explain this in detail in my large book, entitled **The Hindu Book of Astrology**, which it will be wise for you to read and study, because you have such great and wonderful possi-

bilities if you will only be guided by Yogic astrological advice as laid down in this book. You must be determined and make people respect your opinions, which are nearly always right. Literature, such as good standard novels and history, can aid you greatly, also read the lives of great and successful men and women. Listen to all the good music you can, and if you have an inclination to become musical, either as a vocalist or instrumentalist, be sure to cultivate yourself in that direction. You have strong likes and dislikes in the choice of companions, and are inclined at times to change friends, but as a rule you are steadfast and devoted to your intimate friends. A number of Cancer people have wonderful mechanical ability, and they are often found in the manufacturing interests of life. You can be ruled by kindness but will resent compulsion. That is right; permit no one to dominate or compel you to do what is not to your liking. The Rev. Henry Ward Beecher was a striking example of the power, earnestness and pathos of the Cancer people. Pure high religion and philosophy does much for people born in this sign, and many good and great preachers, lecturers and public speakers have come out of it. The women of this sign are usually beautiful and brilliant, lovable and attractive. All Cancer people of either sex can become very charming, lovable and magnetic, and draw to them anything they desire, by giving attention to a few simple rules laid down by the Astrologers, especially the rules given by the oldest system of Astrology in existence; viz., the Hindu Yogic Astrology. In conclusion, strenuously strive to cultivate your highest nature, educating and refining yourself in every possible way. Good books, magazines and periodicals can help you much.

**All persons born from July 22 to August 21, inclusive, are born under the Sign of LEO.**

To be born in the sign of Leo is considered by all Oriental Astrologers very fortunate. If you have not a healthy, vital physique, are strong and well knit, it is entirely due to your lack of knowledge of vital planetary forces and solar powers which are always yours to use for acquiring health and wealth in abundance. The Hindu Yogic Astrologers always say to the Leo person of either sex that they are born

under more than favorable planetary conditions. Naturally you are of a jovial, sympathetic, free and friendly disposition and when you put forth love, sympathy and kindness to all beings, you draw to yourself unseen forces which make you both magnetic and hypnotic. You must avoid getting into a rage or becoming angry, as at such times you injure your health and destroy and drive away good and lasting forces. Leo people are naturally honorable, and when prosperous, quite magnanimous. In money getting, social aspirations and love affairs you can be very successful, when once you are adjusted and understand how favorably you are born. In my large book, entitled **The Hindu Book of Astrology**, I give directions for Leo people showing them clearly how to have wonderful health, acquire wealth and be successful in all of their life undertakings. Indeed, according to the rules of the Yogi adepts your life can be one of continual prosperity and happiness. There are many details a Leo person should give attention to. Briefly stated, you must read much, attend musical and theatrical entertainments, lectures and public meetings. It will be of advantage for you to hear frequently good sermons preached by progressive up-to-date ministers. By acquiring all kinds of knowledge, you can readily fit yourself for successful accomplishment in any enterprise or undertaking to which you apply your mind. You must lead in everything and not allow other minds to dominate or dictate to you. While you are frequently imposed upon by your friends and acquaintances, in time you will overcome this imposition and be strong to resist all that is not good. You are naturally honest and honorable, but are frequently misunderstood. Many brilliant men and women are born in your sign, notably, Mrs. Grover Cleveland and the great novelist, Alexander Dumas. Education, culture and refinement do wonders for Leo people. It will pay you to read and study my large book on Astrology referred to above.

**All persons born from August 22 to September 22, inclusive, are born under the Sign of VIRGO.**

You are naturally cool, calm and confident, and upon this bearing your success and happiness depend. Remember always, that persons born in the sign of

Virgo may have great obstacles to overcome, because they are surrounded with planet and solar fluids and forces that can make them giants of strength in both mind and body. But you must never weaken or get discouraged or blue at any seeming obstacle or trouble, because if you will be natural—calm and undisturbed, you will surmount any trouble. In India the Virgo people when directed and guided by the wisdom of the adept Yogic Astrologers, become great business and professional men. Many artists, engravers and professional men and women come out of this sign. If you have inclinations towards politics, statesmanship, or performing feats of strength be sure to cultivate such tendencies because you will succeed in those lines if your mind tends that way. Senator David B. Hill of New York is a good example of the competency, coolness and shrewdness of this sign. The pugilist Corbett was born during this period, and much of his success in his palmy days was due to his quick sight, agility and cool nerve, which is typical of Virgo. The women of this sign are usually successful and happy. My large book, entitled **The Hindu Book of Astrology**, gives special and comprehensive directions to Virgo people by following which they can abolish poverty and get wealth, have permanent health and live long and happy lives. It will be of decided advantage to you to read and study this work which is founded on the teachings of the great astrological seers, sages and adepts of India. You must listen to all the music you can, and pay attention to getting the best and most nutritious foods to feed your body and brain. If you allow yourself to worry or trouble you are in danger of upsetting your stomach and getting dyspepsia. Cultivate quiet and calm acquaintances. Don't talk much; but be a good listener and a keen observer of matters and things. In love affairs both sexes of the Virgo people are usually successful and happy. The Hindu Yogic Astrological teachings can do much for you, and I would advise you to not neglect such study. Keep cool and calm and you will be successful; don't fret or worry about anything.

All persons born from September 23 to October 22, inclusive, are born under the Sign of LIBRA.

We find in persons born under the sign of Libra a great variety of disposition, but their usual bearing is modest and retiring. Owing to the many and varied natures of this sign, the Hindu Yogic Astrologers have given more attention to this sign than the others, with the result that a Libra person can gain from their teachings wonderful and valuable aid towards making his or her life a grand success in every respect. As a rule you are fond of music, poetry, flowers, pets, and have a taste for things which are refining. You should read much and carefully observe men and women of success. Some very fine actors, speakers and writers come out of this sign. It would pay you well to read and study books on occult science and metaphysics, especially books on Astrology. My large book, entitled **The Hindu Book of Astrology**, is of deep interest to any one, but especially so to a Libra person. Either sex of this sign are usually beautiful and handsome in face and form and are fond of dress. By a little thought and a desire for perfect health you can enjoy a life entirely free from disease as all the planetary forces and solar fluids which make for health and beauty are yours by being born in the Libra sign. You may not believe you can acquire wealth or be very prosperous, but the Hindu Yogic Astrologers will tell you differently. You must avoid worry, hurry and scurry, and ever study to be calm and take the world as it is. If you do this you will become magnetic and people will dearly love to serve you; you can draw good things to you. Plenty of music, out-door exercise, sunshine, and pleasant and happy companions and associates will do much for you in developing latent powers and forces. Many Libra people are spiritually strong, and are never so happy than when dwelling in the higher realms of thought and studying and thinking about God and his Great Universe. Such thinking is very beneficial to any one, and especially so to a Libra person. Your best way to acquire wealth, or to reach success in anything, is to not to be too anxious or apprehensive about the thing sought. Your possibilities are great when once you realize it and have full confidence in yourself. Never doubt yourself—you are a mighty being.

All persons born from October 23 to November 21, inclusive, are born under the Sign of SCORPIO.

Scorpio people, can all have great vitality, a warm healthy temperament and great capacity for mental and physical work. If you are not a great success in everything — health, business, love and social attainments, it is your own fault. Astrology lays down a few simple rules for Scorpio people which if followed brings them the best life of any of the persons born in the twelve signs of the Zodiac. In India the Hindu Yogic Astrologers say to Scorpio people of either sex you are blessed with a most fortunate birth,—but be careful that you do not spoil your future and bring on disaster by not following the simple rules of living which it is necessary for you to observe and obey. You can be a very practical person and possess good sense. Grand and imposing sights thrill your nature with the highest and noblest aims. Much music of the highest and best kind will be very beneficial to you. In my large book, entitled **The Hindu Book of Astrology**, I go into full details with respect to many little things of a practical nature, which it is necessary for people of this Sign to attend to. You can acquire wealth and make yourself a tower of strength mentally and physically. The Prince of Wales was born during this period, and the late Hon. Roscoe Conklin, born Oct. 30th, was a prominent example of this sign. The Hindu Yogic Astrologer says to Scorpio people of both sexes, don't be too proud or vain or too conservative. Remember you live in a progressive world full of active men and women, all of whom are of one great family with one great head or father, and that you must not feel your superiority too much. You are naturally fitted to organize and oversee others; but do it in a manly or womanly way; be firm, just and exacting, yet withal kind and gentle and considerate of the rights of others. This is the Divine Command and cannot be ignored without suffering to yourself. In my large book I clearly show you have a strong and determined will and have much magnetism. I show you how to cure anger and jealousy which are bad qualities of Scorpio.

All persons born from November 22 to December 20, inclusive, are born under the Sign of SAGITTARIUS.

In the Hindu Yogic Astrological System we find that persons born in this sign are an earnest, sincere, frank and honest class of persons, being much admired and commanding respect of everyone. Of course, the reverse to this will be found in undeveloped or low types of Sagittarius. If so it can easily be remedied by following our advice and suggestions. Your true nature is to be jovial, fearless, combative, generous, friendly, very sympathetic and outspoken. All of these are good qualities and can lead you to success. In my large book, entitled **The Hindu Book of Astrology**, I lay great stress on many small things which Sagittarius people must do to reach health, wealth and general health. The planets at your birth were in such relation to each other as to surround you with forces which are both good and bad, and you must understand once and for all time, your happiness much depends upon your controlling your appetites, passions and desires so that they will not carry you to extremes and thus cause you suffering and failure in your undertakings. In India the Yogic Astrologers give much attention to persons born in your Sign and many very successful persons can thank these seers and sages for their wisdom. Give freely of your love to animals as well as human beings and take lots of outdoor exercise. Music and dancing when indulged in moderately will be beneficial to both your mind and body. Associate all you can with bright, vivacious and jovial persons of both sexes. The study of so-called mystical subjects—occult science, etc.,—will be of advantage to you. Read a great deal, especially works on astrology, philosophy and metaphysics. You are of the motive temperament and your life and health depends upon work—industry. Many writers, authors, generals and men and women of daring come out of this Sign. "Mark Twain," born in this Sign, is a good example of the energy, honesty, wit and jovial disposition of the Sagittarius people, while the late General Custer, born during this period, was a fine example of the daring, strength and combative nature of the Sign. All in all you were born under favorable planetary conditions.
